

Maybe is time for you to take a hard look at your operation and think things over. The mortgage industry is currently experiencing a slower market where sales are down and profit margins are less. Maybe is time to stream down your expenses.

It is the general opinion that it is time for mortgage lenders to stream down their operations by lowering their operating expenses. One of the highest operating costs is personnel. Some of you have already done the agonizing option of letting people go. It is not an easy thing to do. Now let me talk to you about Mortgage Documents Solutions, Inc., (MDS) provides you the Appraisal Firewall platform from where you can dispatch all your appraisals using your own appraisers. MDS/Appraisal Firewall allows you to streamline your loan dispatch and process while providing you with peace of mind.

You will organize your appraisal process and at the same time lower your operating expenses by saving money on some of the other most expensive operating services you pay every month. For example, lower your phone bill, lower your fax communications, lower the wasted time on the phone locating the appraiser, lower your operating expenses and one of the most important savings is; the hard drive space you will save by organizing your incoming documents directly into your customer's file. No need to use your email accounts to receive and/or save documents from appraisers. MDS/AF provides you with 24/7 access to your files and will save it for up to five years for you to access.

"I recommend that we seize this opportunity to redefine success."

Can you believe you can be saving all these by using a service we at MDS offer you for FREE ?. Well my friend, we will make you a believer of this amazing service once you see how this web-based platform works for you.
